

Year-End.

NON-Registered status is for those players that are in your database but have yet to sign up for the new year. As our year ends we need to set all players to a non-paid non-registered status. IF YOU DO NOT DO THIS YOU WILL BE BILLED FOR THE PLAYERS. Please do NOT delete players, coaches or managers unless you are certain that they will not be returning. **Before removing them you must change their profile to indicate no team** assignment. This moves them off the team but keeps them registered for the current seasonal year. All members once registered are members for the full year and should not be deleted but marked non-registered.

The current registration year will end August 31. All player data in Got Soccer as of September 1 should be marked "NON-REGISTERED". You should NOT mark them "NON-REGISTERED" until the August.

MYSA is currently reconciling the payments made with the numbers you have registered, if there is a balance due MYSA you will receive an invoice via email, the payment is due upon receipt of the invoice.
